QUICK-GUIDE Basic operations DPA-800

Installation of the resizing software – Instruction

To enjoy maximal amount of pictures at the best quality on your Lenco digital photo album DPA-800 we recommend you to resize the pictures while you place them on your DPA-800. Follow the following steps to install the software on your computer.

1. Connect the DPA-800 with the computer.
By using the USB cable.
Slide the ON / OFF switch in ON position.
2. After approximately 10 seconds the computer will recognize the DPA-800 as a removable disc, go to my computer and select the removable disc.
3. Open the folder "DEMO"
4. Double click on the icon vso_image_resizer2_setup_lenco_2.2.1.2.exe to start the installation.
5. Select your language
6. Read the instruction carefully for correct installation of the resizing software.
7. Once the installation is complete press Finish to exit the installation wizard of the resizing software.

7. Select the DPA-800 and desired folder on the unit, confirm by pressing OK.
8. Press OK again and the software will start to resize the selected photos on to your DPA-800.

Basic operation of the resizing software – Instruction

1. Connect the DPA-800 with the computer
By using the USB cable
2. Start the software.
3. Select the photo's which need to be resized.

4. Select the desired resolution after resizing (recommend is 800 X 600 Px).

5. Action: need to be set as "Create Copies".
6. Destination: select "browse"

9. Press close to close the resizing software.

Note:

The DPA-800 will boot with a preset slideshow. To stop the slideshow long press Main Display button.

While viewing photo's it is possible to view the photo comment. When this option is set, the comment is visible at the bottom side of the LCD display. When there is no comment available there will only appear a black bar.

The DPA-800 is a photo viewer only so always save a copy of the photo's installed on the DPA-800 on your computers hard disc to prevent the risk of losing any.

Lenco is not responsible for damaged or lost photos
