CONNECT DVD PLAYER TO OTHER APPLIANCES

- It is recommended you connect the player to a multi-system TV.
- Ensure that this player and other appliances (TV set and amplifier) that will be connected to the player are set to OFF mode and that the AC cords are disconnected from the wall outlet.
- Avoid blocking ventilation holes of the connected appliances and make sure air around there can circulate freely.
- Read carefully and follow the instructions before connecting other appliances.
- Ensure that you observe the color coding when connecting audio, video cables. If the RCA adapter is supplied only, the audio/video RCA cable is required. Plug one end of the RCA adapter to the unit. Then connect the audio/video RCA cable to the RCA adapter and the television.

CONNECTING THE AERIAL TO THE PLAYER

1. When this player is connected to the outdoor aerial, make sure that the TV programme is available from the signal tower.
2. The quality of video depends on the signal strength.
3. When this player is connect to the outdoor aerial, in avoid that the huge buildings or obstacle would block the signal.

CONNECTING TO A CAR ADAPTOR

The car power adaptor is designed for use with vehicles that have a 12V or 24V, negative ground electrical system.

WARNING:

Disconnect the car power adaptor when not in use.

CAUTIONS:

- Use the unit only with the recommended car power adaptor, use with other car power adaptor might damage the unit.
- The recommended car power adaptor is for use with this unit only. Do not use it with other equipment.
- In the interests of road traffic safety, do not operate the unit or view video software while driving a vehicle.
- Make sure the unit is fastened securely to prevent from moving outside of the vehicle in an accident
- When the inside of the cigarette lighter socket is dirty with ashes or dust, the plug section may become hot due to poor contact. Be sure to clean the cigarette lighter socket before use.
- After use, disconnect the car power adaptor from both the unit and cigarette lighter socket.

FUSE REPLACEMENT

NOTE: Don't throw out the positive(+) cap when replace the fuse.

STEREO HEADPHONE JACK

A stereo headphone jack has been provided on the back of the unit so that you can listen to the unit without disturbing others. To use this jack, plug in the headphones/earphones (not included) and adjust the VOL+/- buttons to a comfortable listening level.

NOTE: When external headphones/earphones are connected, the sound to the unit's main speakers will be muted.

Caution: Listening at high power for a long moment could damage users' ears.

CHARGE THE BUILT-IN BATTERY

The player is with a rechargeable lithium battery. Before using the battery, please make sure it is charged. If not, charge it first. Slide the power switch to OFF position and then connect one end of the supplied adaptor to the wall outlet and the other end to the unit for charging the built-in battery.

Note:

1. The battery only could be charged at powering off mode.
2. If the unit is not in use for a prolonged period of time, it is recommendable to charge the built-in battery each three months.

OPERATIONS

PREPARATION

Power on the TV set and select video input mode.

Power on the audio system which is connected to the player.

GET STARTED

1. Slide POWER ON/OFF switch to turn on the player.
2. Press disc cover open key to open the disc tray.
3. Place a disc onto the disc tray.
4. Close the disc tray by hand and the playback starts automatically.
5. When a menu screen appears on the TV, press the navigation buttons or press the numeric buttons to select a preferred track number, then press OK button to start playback.

NOTE: If at DVB-T mode, pressing FUNCTION button on the remote or long pressing FUNCTION button on the unit for switching the unit to DVD mode is necessary.

ADJUST THE VOLUME

Press VOL+/- button on the remote or press and hold VOL +/- button on the unit to increase or reduce the volume.

MUTE

While the power is on, the audio output of the main unit is to be switched off by pressing the button. Press it again to resume sound output.

SKIP AHEAD OR BACK

Press PREVIOUS button during play to skip previous chapter (DVD) or a track (CD), Press NEXT button during play to skip next chapter (DVD) or a track (CD).

RAPID ADVANCE/REVERSE

During playback, press and hold F_FWD button or F_BWD button to scan the disc forward or backward at X2, X4, X8, X20 of normal speed.

Press PLAY button to resume normal play.

STOP PLAYBACK

Press STOP button during playback to stop playback; the player activates its resume function when STOP is pressed in STOP mode; press PLAY/PAUSE button again, playback resumes at the point it stopped previously; open the disc tray or press the STOP button one more time to clear the resume function.

Press and hold STOP button to make selection among Disc, card and USB.

SLOW-MOTION PLAY (DVD)

Press and hold SLOW button on the remote during playback, the disc will be played at 1/2 of normal speed at first, each time this button is pressed, the play speed becomes slower (down to 1/7 of normal speed.)

Press PLAY button, normal play will resume.

REPEAT

Press REPEAT button during play, it will repeat play one chapter/title or repeat all (for DVD disc), or repeat play a track or all tracks (for CD), or repeat the sections between two specific points (A-B).

SEARCH FOR PREFERRED SCENE

1. Press SEARCH button during play and highlight the item to be played (Title, Chapter, or Chapter time) by navigation buttons.
2. Input the desired number or time via the numeric buttons.

3. Press OK button to confirm and the playback from the located scene starts.

4. To exit search menu, press SEARCH button directly.

PROGRAM PLAY (UP TO 16 MEMORIES)

1. Press PROGRAM during playback to display the program menu.
2. Select location(s) to be memorized via navigation buttons and then enter desired Titles/Chapters numbers via numeric buttons.
